PCX-PROX/EXT TAG READER

Easy to use with proximity tag

The user can simply present a tag to the PCX-PROX/EXT to arm/disarm the system or for access control.

Stylishly surface mounted

Sits perfectly against the wall to deliver a professional and pleasing finish.

Robust & ready with IP65 weatherproof compliance

Being waterproofed to IP65, the PCX-PROX/EXT can be used on any external entry rather than having to be under cover.

Meet the required security standard with Grading options

The PCX-PROX/EXT is Grade 3 for the superior security any installation needs.

Be in the know with green & red status LEDs

Green and red LEDs provide a quick and easy visual indication of the status of the system, when a valid tag is presented.
