PCX LCD KEYPADS

Easy to use with built-in proximity tag reader or user code

The user can simply present a tag or enter the security code to quickly and easily arm or disarm the security system.

Meet the required security standard with Grading options

The PCX LCD Keypad is Grade 3 for the superior security the installation needs.

Tailor to the needs of the user with adjustable key-click volume

Simply select the preferred key-click volume to deliver the perfect pitch.

Know the status of the system with backlit symbols

Whatever the status of the system, the PCX LCD Keypads will provide local indication with symbols for alarm, tamper, fault and disarmed.

Beat the burglar with tamper protection

This ensures that maximum security is maintained against accidental or malicious tampering of the system, providing that added peace of mind that the system is secure.
